

How to Contribute to the Carnoustie Camera Club Locations Map (Angus)

The process below looks complicated but is very easy once the process is practiced.

1. Create a Spreadsheet in Excel, Numbers or Libre Office.
2. Format the spreadsheet with the column names as below (in bold):

	A	B	C	D	E
1	NAME	What's there	Nearest Town	Recommended By:	LOCATION
2	Sourde Ness	Lighthouse	Montrose	Richard	56.701929, -2.437314
3	Balmashanner Memorial	Tower memorial	Forfar	Richard	56.632549, -2.885642
4	Murton Nature Reserve	Nature reserve and Cafe	Forfar	Richard	56.650201, -2.828494

3. Open Google Maps in a browser. Most browsers work, but if you have problems, switch to Google Chrome.
4. Search for your location and use Google Maps to view it.
5. Right click the exact area you want to add and select 'What's here?'" from the menu that appears.
6. At the bottom of your Google Map, a small window with the place, a photo, the postcode and the WGS84 grid co-ordinates. Carefully copy the co-ordinates and put them in your LOCATION column of the spreadsheet. Fill in the other details for the location.

7. Save the Spreadsheet and email it as an attachment to carnoustiecameraclub@gmail.com
8. I will publish your locations when I do regular updates of the website. Thanks for your assistance.
